

Backing Up Your Safari or Firefox Bookmarks

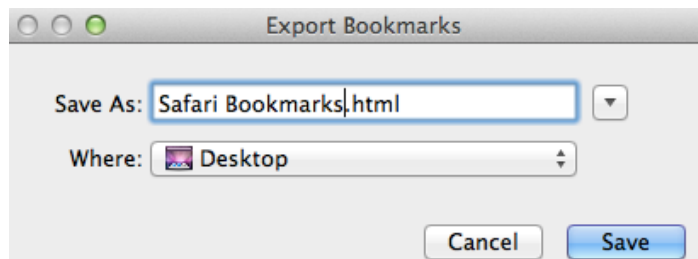

Safari Users:

1. Open **Safari**

2. Click on **File/Export Bookmarks**

3. In the window that opens, save your exported bookmark file to the **Desktop**.

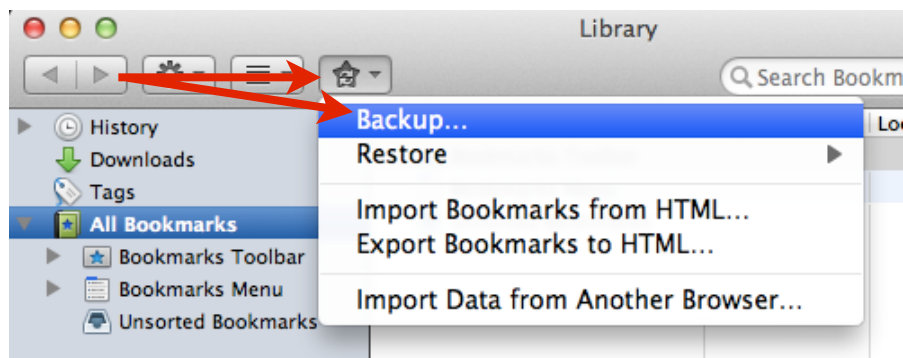

4. You'll notice a document appear on your desktop like this.

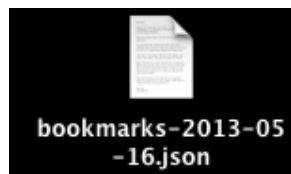

5. Copy this document to a flash drive, an external hard drive, or a CD/DVD. (Do not save it to your dropbox.)

Firefox Users:

1. Open **Firefox**
2. Click on **Bookmarks/Organize Bookmarks** or **Bookmarks/Show All Bookmarks** (Depending on your version)
3. In the window that opens, click on the 'star' button and choose Backup.

4. In the save window that opens, choose to save the file to your **Desktop** and click **Save**.
5. You'll notice a document appear on your desktop like this.

6. Copy this document to a flash drive, an external hard drive, or a CD/DVD.
