

## QR Codes and the iPad

**What is a QR code or Quick Response Code?** It is the trademark for a type of matrix barcode (or two-dimensional code)

**Common Types of info stored on a QR code:** a short piece of text, website address, phone number, email

### Why use QR codes in the classroom?

- Promotes exploration
- Promotes collaboration
- Saves Paper
- Integration of the digital and physical worlds
- Shows learning all around us
- Gets students out of their seats
- Learners interact with the world around them

### How can you use QR codes with URLs?

- Visit a website and collect information
- Play a video
- Launch an MP3
- Visit a website and contribute to it
- Take a survey
- Make a QR code for your website

### Tools for Generating QR Codes:
