

Sharing Quizlet Flashcard Activities with Students

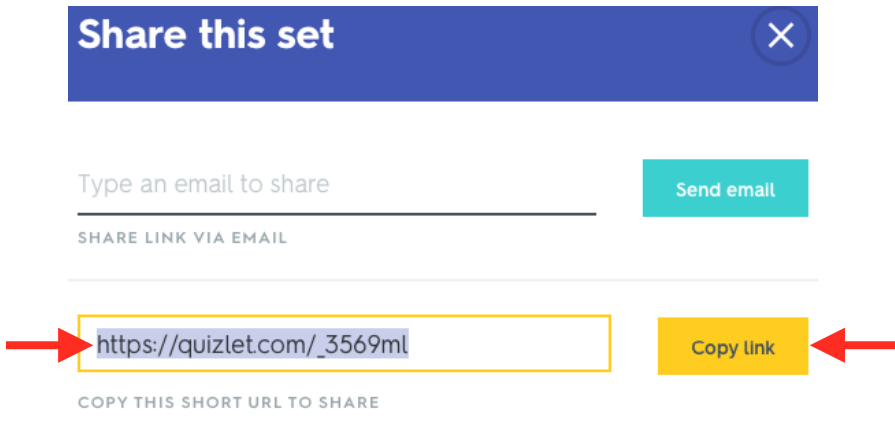

1. Create a set of flashcards or use Quizlet's search feature to find a set and add them to your account. (Found sets can be edited by the teacher.)
2. Click on the set of flashcards you want to share.

3. Click on the **Share** button.

4. Highlight the link and click the **Copy Link** button.

5. The link can now be posted on your class website for students. Or, use the link to display the review activity on your Promethean board for a great whole class or group activity.
