

Updating the ActivInspire Software

1. Open **ActivInspire**
2. Click on **Help/Check for Updates** in the main toolbar

3. If an update is available, follow the prompts to download it. It will download into your **Downloads** folder.
4. Once the download is finished, open your **Downloads** folder and double-click on the file to open and install it. You must quit out the ActivInspire software to install the updated version. Follow the prompts to complete the installation.
